

This **revolutionary monocrystalline sapphire** bracket will **forever** change the way you look and think about clear brackets.

The beauty of the **ClearViz+ Mini** is that will you give up nothing in treatment and gain the patient satisfaction of using a crystal clear bracket. The endless features of ClearViz+ Mini include: the **superior strength** and clarity of **Monocrystalline Sapphire, Plasma silica coating** for **superior sliding mechanics** and **slot strength**, 30% smaller size with **perfectly rounded edges** for uncompromising patient comfort, infinite bond strength throughout treatment, and the perfection of **minimal fracture during debonding**. As you can see, there is no equal to the ClearViz+ Mini in aesthetic orthodontic treatment.

## ClearViz+™ Mini

Bracket System

Our **Best** Clear Bracket Ever...

**Super Clear**  
Substantially Smaller!  
30% Smaller than the original ClearViz+

“I’m a huge advocate of patient comfort which is why I chose the ClearViz Mini Brackets. They are substantially smaller than most clear brackets available on the market today which is a huge plus for patients who may be apprehensive about wearing braces for the first time. Additionally, the brackets are so visibly clear that they make the perfect option for patients concerned about aesthetics. Great job Dynaflex.” ”
